Business Benefits :

- Better and easy way to make sales happening.
- Streamline your enterprise and save invaluable time and resources.
- Critical information of leads and contacts with different stages Helps sales managers to know which deals close first and do follow up accordingly
- Creating a satisfactory customer experience that will delight your current clients
- Help you acquire new clients much faster .
- Automate your sales process to analyze important sales and client data for better customer satisfaction

e-Freight integrated ERP advantage

Since e-Freight is completely web based , the software can be accessed from any part of the world to know the critical information which will be highly beneficial especially for the top management who are into continuous travel

There is a continuous flow of data from Enquiry to Quotation , Job ,MB,HBL, Freight Booking, Invoice , Journal and Ledger . The duplication of data entry can be totally avoided which saves lot of time and errors due to manual entry When the invoice is generated, system will automatically create the Journals and when approved, would be posted in Ledgers which avoids the manual Journal creation

Cost Benefit :

There is no License renewal issue . It is one time installation cost .

Reason to choose e-Freight ERP:

- **User-friendly interface and navigation**

Considering the nature of freight forwarding Industry executives with extremely busy and tight schedule, e-Freight is simple to learn because of its user friendly interface and ease of navigation.

- **Truly Web based**

e-Freight is a web based solution and so accessible from any part of the world during your business trips, holidays etc. Our approach is to give you access to your freight data throughour software round the clock, across the globe.

- **Best in Training and Support**

We have a separate team for training and support , who can provide you the best training for you in e-Freight system to make your team understand the system with minimum effort and time. We routinely engage with customers to understand them better and provide the best support.

- **Accounting module**

e-Freight is integrated with Tally ERP 9, with multi user licensed .It is Customized as per Logistic industries
